PROFILE

I am a Fullstack Web & Mobile Developer with a strong passion for the IT field and a deep interest in technological advancements. In every project I work on, I strive to provide innovative and efficient solutions to meet user needs optimally.

EXPERIENCE

Internship at BMKG Bengkulu (December 2023 - Present)

- Developed a PTSP application with a responsive interface and an efficient backend.
- Collaborated with the team to ensure the application's performance and stability.

Fullstack Web Developer June 2024 – July 2024

- Responsible for developing the Simore (Rescue Monitoring System) application.
- Created an intuitive frontend and efficient backend to support search and rescue operations.
